Project Proposal & Quotation

TFC365.com – Tara Fitness Club Website & App

Date: August 17, 2026

Valid Until: September 17, 2026

Prepared By: Ravi Patil

Prepared For:

Tarachand Parmar – Tara Fitness Club (TFC365.com)

1. One-Time Setup & Deployment Cost

Full end-to-end design, development, and deployment of the TFC365 gym website & management system — covering member management, plans/subscriptions, and admin dashboard, engineered as a special package for Tara Fitness Club.

Phase	Details	Amount (INR)
Website Build	Complete frontend + backend design and development of the TFC365 gym website.	**Included**
Backend Development	Node.js/Express application logic, APIs, and admin dashboard.	**Rs. 2,000**
Database Setup	MongoDB structuring for members, plans, payments, and attendance.	**Rs. 2,000**
Server Configuration	Server setup, environment configuration, and SSL/HTTPS.	**Rs. 2,000**
Cloud (AWS) Setup	AWS integration and configuration for reliable hosting.	**Rs. 1,000**
Domain Name	Registration/configuration of tfc365.com and DNS setup.	**Rs. 2,000**
Hosting Setup	Hosting environment setup for the live platform.	**Rs. 1,000**
Testing, Debugging & Handover	Functional testing, bug fixes, and all revisions during development.	**Included**
Total Setup Cost		**Rs. 10,000**

Payment Terms (Setup):

- 50% Advance (Rs. 5,000) required to commence design and development work.
- 50% Balance (Rs. 5,000) due upon successful delivery and handover of the live website.

2. Ongoing Maintenance & Cloud Hosting

Keeps the TFC365 platform running securely and reliably. This retainer covers server & hosting costs, database upkeep, domain renewal support, monitoring, and technical support, billed once every two months.

Service Included	Details
Cloud Hosting & Server	Covers server, AWS, and hosting costs for the live application.
Database Maintenance	MongoDB upkeep, backups, and performance checks.
Domain & Security	Domain-related support and routine security monitoring.
Technical Support	Priority support for the admin dashboard and minor bug fixes.
Total Maintenance Fee	**Rs. 2,000 every month**

> **Maintenance Terms:**
> - Flat unified fee — no surprise charges for routine cloud usage.
> - Payable at the start of the month, between the 1st and 5th, once every 2 months, starting one month after the platform goes live.

3. General Terms

Prices for third-party services (hosting, domain, cloud/AWS, etc.) may vary as per prevailing market rates; any change will be communicated to the Client in advance. This quotation is valid until the date mentioned above.
